Bionetic Immune Support Scan Protocol - In office

Provide a Basic Immunity Builder scan for your clients

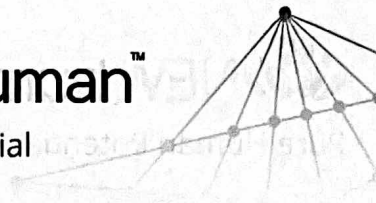

- \$99.00 - Single Visit
- **Visit 1**
- Scan using the following categories
 - List A and add:
 - Acupoints, Bacteria (all 3), Colors, HNH New Human Botanicals, Immune Lyme, Flower Essences, Geopathic-Energetic Stress, Polycrystals, Xenobiotics, Vibration Emotion, Virus
 - The NH Botanicals will give you an idea of the overall stress and the Flowers will guide you.
 - Create the workset - top 3 MPR of all categories
 - Note - this is different than Emotox and you will **NOT** "select list A" and "click this bar to select all substance in this gridview" - when building the workset
 - Top 10 of DUR All categories
 - Optimize 6 times
- **Green Laser** - 2 minutes total on the ears (alternating sides) and 1-2 minutes total on the K1 Point on the bottom of the foot - 30 seconds each foot. (Middle of the foot, behind the ball of the foot). **You can also switch to the RED laser for the Foot.**
 - For children under 12 yo - only use K1 - 30 seconds each foot.
 - For children imprint the hold file into Children's Recover Remedy or PhenoCare
 - For adults - imprint into whatever you chose, except Lymph product (**we will roll in Geno + Lymph in visit 2**)

Advanced Immunity Protocol

- \$195.00 - two more visits
- **Visit 2**
 - 3-5 days after Visit 1 above
 - Scan using the following categories:
 - List B and add:

Pure Human Potential

Immune Support Protocol

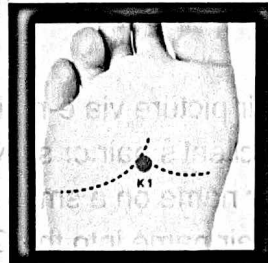

- Acupoints, Bacteria (all 3), Colors, HNH New Human Botanicals, Immune Lyme, Flower Essences, Geopathic-Energetic Stress, Polycrests, Xenobiotics, Vibration Emotion, Virus
- Create the workset - top 3 MPR of all categories
 - Note - this is different than Emotox and you will **NOT** "select list B" and "click this bar to select all substance in this gridview" - when building the workset
- Top 10 of DUR All categories
- Optimize 6 times
- Red laser
 - Adults - 2 minutes total on the ears (alternating sides) and 1-2 minutes total on the K1 Point on the bottom of the foot - 30 seconds each foot.
 - Imprint into the appropriate Geno and give a Lymph care - Open the Lymph and Stop the Drop!
 - For children under 12 yo - only use K1 - 30 seconds each foot.
 - For children imprint the hold file into Children's Recover Remedy, PhenoCare, or Cell Salts All
- Visit 3
 - 3-5 days after Visit 2 above
 - Scan using the following categories:
 - List C and add:
 - Acupoints, Bacteria (all 3), Colors, HNH New Human Botanicals, Immune Lyme, Flower Essences, Geopathic-Energetic Stress, Polycrests, Xenobiotics, Vibration Emotion, Virus
 - Create the workset - top 3 MPR of all categories
 - Note - this is different than Emotox and you will **NOT** "select list and "click this bar to select all substance in this gridview" - when building the workset
 - Top 10 of DUR All categories
 - Optimize 6 times
 - Imprint the new hold file into the Geno from visit 2. If a new lymph is discovered, see if the new work set balances it, if not, add additional lymph.
 - Red Laser
 - Adults - 2 minutes total on the ears (alternating sides) and one minute total on the K1 Point on the bottom of the foot - 30 seconds each foot.
 - Imprint into the appropriate Geno and give a Lymph care - Open the Lymph and Stop the Drop!
 - Children under 12 yo, only use K1 30 sec per foot.
 - For children imprint the hold file into Children's Recover Remedy, PhenoCare, or Cell Salts All

K1 Point

Nutrition + Lifestyle Considerations

- Get proper sleep, rest, and good nutrition!
- **Add Organic (and grass fed if you have access) whole fat cream, butter and milk - this is a big one!**
- Bone Broth
- Increase Fatty Acids
 - Healthy fats from grass fed meats
 - Clean wild fish
 - Organic fresh veggies
- Avoid/limit sugars and simple sugars
 - Reduce carbohydrates: they inflame the lymphatics
- Increase your mindfulness practices
- Take a foot bath or a salt soak - using Flexatones and Pure Essences

Notes

- Whatever
- This is NOT a diagnostic test for determining if one has Corona
- There are other 'Coronaviruses' in the software but not this current strain as of yet
- The green laser lowers stress while the red laser does the work. Starting with the green laser and switching to the red is a useful practice.

Virtual Scan Appointment via Remote Surrogate Scanning

- Have the Client send you their picture via e-mail.
 - You may also use the client's hair or saliva
- Print the photo and write their name on a small sheet of paper.
- Place it on the plate. Enter their name into the Client Database.
- Run the scan using the Surrogate Test Procedure and the categories listed above.
- Review the findings/results/reports
- Create your hold files and optimize or use waves
- Then place the paper into the well and imprint the paper
- You can also laser the paper using LLLT directly on the photo
- Place products into the well and imprint
- Go over the scan via Skype or Zoom
- Mail imprinted products to the client
- You may also order products on the New Human website and send to your client as a dropship

Notes

- Whatever you do - DO NOT call this a "Corona Scan"
- This is NOT a diagnostic test for determining if one has Corona
- There are other Coronavirus' in the software but not this current strain, as of yet
- The green laser lowers stress while the red laser does the work. Starting with the green laser and switching to the red is a useful practice.
